

IntuitionMD™

Document Management Simplified

Document Management at the Push of a Button

Managing your patient and practice records can be as easy as making a copy. IntuitionMD is the solution for smart practice managers who want less paper – and an easier workday.

Run Smarter®

Laserfiche®

Stop Making Copy After Copy. Start Working Smarter—with IntuitionMD.

IntuitionMD is a comprehensive, easy-to-use document management solution that helps you locate any document in seconds. And because IntuitionMD is inside your Kodak ScanStation 520, anyone in your office can scan and store all your records—quickly, easily and automatically.

With IntuitionMD, you scan and store paper documents in pre-defined folders, so you don't just create an electronic patient chart—you also manage all your office's records, from billing and accounting to human resources files, in a single, easy-to-use application.

IntuitionMD's HIPAA-compliant repository stores any record format, so whether you're storing scanned paper documents or your existing electronic records, all your information is at your fingertips.

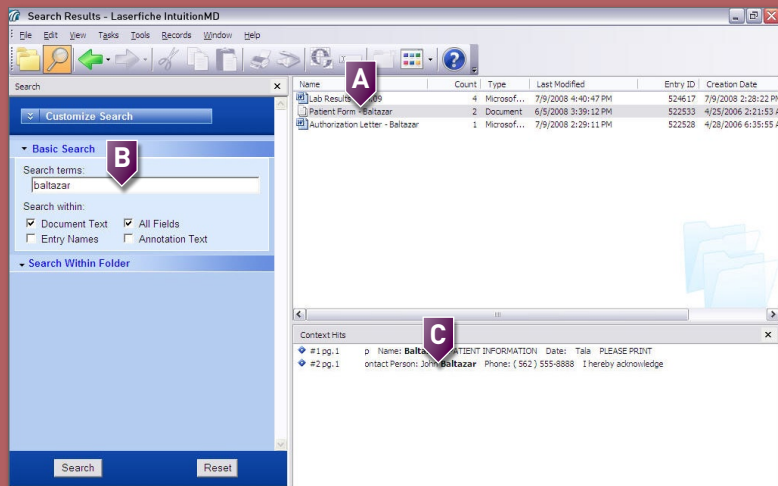

And locating information is a snap, because an intuitive touch screen makes it easy to find your documents. Whether you're searching for a patient ID number, name or medication, you can locate your documents with whatever information you have available and instantly e-mail or fax them right from IntuitionMD—so you spend your valuable time providing better patient care, not shuffling paper.

How Does IntuitionMD Save Me Time and Money?

Modern property costs mean that every square foot of your office space is valuable. Reclaim some of that space by scanning paper documents into IntuitionMD.

Eliminate the need to photocopy, file and retrieve large numbers of paper files. Save the money you currently spend printing, copying and mailing documentation by e-mailing them right from IntuitionMD.

How much faster could your revenue cycle be? Within IntuitionMD, you improve your office's cash flow by billing daily, instead of weekly, by ensuring all necessary claim information is at your fingertips. You work faster, smarter and easier—and best of all, you improve your revenue cycle without hiring additional staff or producing unnecessary paper.

- A** IntuitionMD manages all your files, from scanned documents to spreadsheets to archived e-mail messages.
- B** Comprehensive search options enable you to locate documents in seconds.
- C** IntuitionMD makes it easier than ever to pinpoint the information you need.

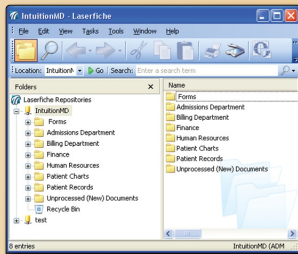

Laserfiche IntuitionMD

(Inside Kodak ScanStation 520)

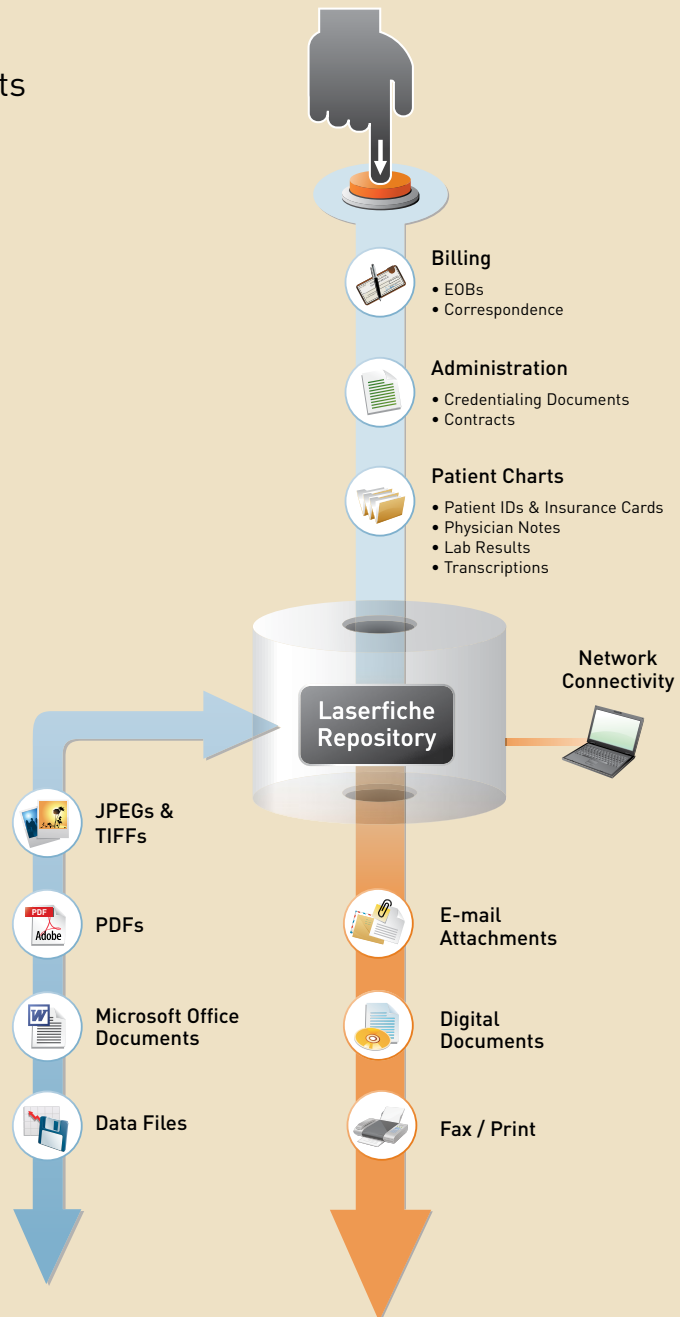

Easily manage and distribute your documents without repetitive copying.

Everything you need is there from the moment you start IntuitionMD:

- HIPAA-compliant repository stores any record format.
- Pre-defined folder structure gets you right to work.

- Rich scanning interface and easy-to-use document viewer makes working with scanned documents simple.
- Powerful image clean-up technology gets the most from your documents.
- Advanced optical character recognition functionality speeds full-text search.
- Comprehensive security keeps your information safe from unauthorized access or release.
- Customizable templates help you categorize your information for rapid search and retrieval.
- Highlighting, sticky notes and custom stamp annotations enable you to work with your digital documents like you would with paper.

A Path for Growth

We've built IntuitionMD to store millions of document pages, without slowing down. Even after you've built a substantial archive of scanned documents, searches only take seconds. And because IntuitionMD is built by Laserfiche, you can easily move to a larger, networked system whenever you're ready to take the next step in document management.
