

Identity Theft is an alarming trend. Personal data in shared documents and online records can put people's security at risk. ID Shield is a powerful and cost effective redaction tool that can help you streamline the process of securing the sensitive data in your electronic documents.

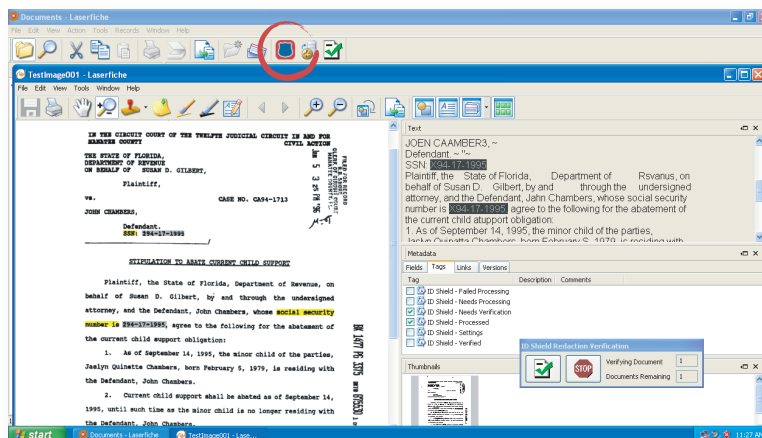

Announcing ID Shield for Laserfiche

ID Shield for Laserfiche brings the power of Extract Systems' redaction technology to your Laserfiche repository. Whether you need to redact millions of existing documents, a handful of documents on an ongoing basis, or every document added to your repository, ID Shield can protect your sensitive data.

Features:

- Powerful rules-based technology locates and redacts precisely the data you select, from anywhere on the document
- Accurately redact any type of data including Social Security numbers, drivers' license numbers, dates of birth, addresses, signature blocks and fingerprints
- Same powerful rules-based redaction technology whether you have 20 documents or 20 million documents to redact:
 - Redact large sets of documents on one or multiple servers with Background Redaction
 - Redact a small number of selected documents with On Demand Redaction
- Redact structured, semi-structured and unstructured documents
- Option to verify redacted documents before processing to ensure the highest accuracy
- Automatically redact at the touch of a button without leaving Laserfiche Client

Identity Theft is the fastest growing crime in the U.S. the Federal Trade Commission reports. Over 800,000 fraud and identity theft complaints were received by the FTC in 2007.

About Extract Systems

Founded in 1998, Extract Systems' automated data capture and redaction technologies dramatically reduce manual data entry costs without outsourcing, allowing government and businesses to comply with privacy legislation and protect citizens from identity theft. Its productivity solutions are deployed at more than 400 customer and partner sites across North America.

Laserfiche®

We invite you to submit sample documents to find out how well ID Shield can perform for you, free of charge.
